

# Lil' Rob, No Soy De Ti

You know ever since you've been gone  
I find myself unable to sleep at night  
To some people it's just another day  
But the Lord knows down inside, I just don't feel right

Love gets a hold on me, think I'm about to fall baby  
But I can't let you see all the things you're doing to me  
Remember when you told me how you wanted to be free, and you left me (y te olvidaste de mi)

What about me and all of my pain, times I thought I was going insane  
Calling your name, you're no where around, no where to be found  
Nobody cared, nobody was there it was just me sad and lonely, broken homey  
I smile for my friends and cry later for you just like the oldie told me  
Remember how you treated me, you said you never needed me  
Spent all your time deceiving me, why couldn't you just believe in me  
Now your en mis suenos y pesadillas  
And I can't wake up from this state and I can't take heartbreak again  
What would happen if I took you in, I would lose and you would win again  
You want your cake and eat it too, what would happen if I cheated you  
Gee I can only imagine all the things that I would be  
I belonged to you but you never belonged to me, no soy de ti, no soy de ti

No soy de ti  
Tu no eres la mujer para me  
Acuerdate que te fuiste  
Y te olvidaste de mi

Come a little closer, look at me, what do you see  
The tracks of my tears because of you and wasted years  
After all the times you lied to me, all the fake tears you cried for me  
Now you wanna try to be, something that you denied to be  
Reality didn't live up to my dream, I never thought that you'd leave me  
Torture and sadness these things you left me, paired when I'm lonely  
Drives me insane, I'll never be the same as before you  
Girl I live for you, please say it isn't so  
The one in love is always the last to know  
Remember when you'd write that fool up in the pen  
And asked me if I cared and I said of course I did but you went and did it again  
Said he was just a friend, but then it was someone you went out to see  
While I'm standing underneath the streetlamp wondering who is the girl for me  
I never knew that when you said "I love you" it was just for a little while  
When we get married have a big celebration  
Send invitations to all our friends and relations  
That's what I wanted, I wanted to make you my wife  
But now I want you to stay out of my life( my life, my life)

No soy de ti  
Tu no eres la mujer para mi  
Acuerdate que te fuiste  
Y te olvidaste de mi

Everytime I find another love and try to settle down  
And build my castle to the sky, you come and tear it down  
I treated you like a queen, how come I didn't feel like a king  
I told you if you lose me, that you would be losing a good thing  
I'll always remember that day in September, cold as December  
Leaving behind a fool such as I teary eyed  
I guess you had your mind made up, now you've got your fools mixed up  
Tore off our legs, throw them on the ground for me to pick up  
That's the night you laughed at me, threw your little past at me  
Never thought I'd see the day that you would see the last of me  
Fears of losing you kept me holding on, but I got strong  
You never know what you got until it's gone  
Cuando te queria no me quisiste Cuando te fuiste me dejaste triste y te reiste

de mi  
Ain't it funny now you want me  
vete con su hombre y olvidate de mi  
No soy de ti

No soy de ti  
Tu no eres la mujer para mi  
Acuerdate que te fuiste  
Y te olvidaste de mi
