

# Lil' Sammie, Hero

Many people have their own  
Definition for a hero  
Mine just happen to be  
The ones that brought me  
Into this world  
So this song is dedicated to you  
Dear Mom

Gave to me life, heard my cries  
Curiously looked in my eyes  
All those things you said to me  
I'd be a doctor, lawyer, scientist  
Conversations from the heart  
Funny how you tolerated me  
There are times when you stood for me  
But you're always there when I need  
The little things you do  
God has blessed me  
You're my hero, my hero lives in you

1- You're my hero  
You don't need an S across your chest  
You're my hero  
You know you can move mountains by yourself  
But still you're my hero

The strongest person that I found  
Can leap a building in a single bound  
But know you're my hero

Lately after months been gone  
Spending time with you alone  
Basketball practice you went with me  
Football and those baseball games  
You wanted me to play  
But still you helped me be  
The singer that's in me ooh daddy  
There were time you stood for me  
But you're always there when I need  
The little things you do  
God has blessed me  
You are my hero, you are my hero  
My hero, my hero lives in you daddy

Repeat 1 (2x)

There were times when I would sit down  
And talk to you  
Yes there were times oh yeah  
Sometimes I miss those days
