(Verse 1 - Lil Scrappy)

Ill leave your ass crippled

Like some frosted flakes

What you call it sneakin up

Tha man Jake the snake

Every nigga on the street

Got something to say

Until they get sprayed in the face

With a gay like mase

I dont hate the fagget

Lets get dashed and crunk

I was lifted by a preacher

So my mom pushed weight

Now I hooked up wit game

Real nigga with flame

He show me cali love

And I aint in no gang

Every nigga that role wit me

Betta keep it G'd

Ill put the verdebrate

Push a DDT

Lets get the sippi

Yall niggas aint even gifted

Bust a shot at your chin
Your top getting lifted
G's up get your G's up
Scrappy with your weed up
I f**k with g-unit
So yall sake get they ass lumped

Your homeboy really going
Through something
I cant change

I f**k hoes that would make
Mya look lame

(Chorus)

(Verse 2 - Game)

The realest of niggas
I role wit them killas (yeah)
The world gotta feel us
My clique is gorilla
You niggas in trouble
Im in the track with B-M-E cliqueing
You aint gotta know
Im sigend to Dre to know that he sick
P-89 thats what I handle my beef with
Put them hollow tips under your arms
Like speedstick
Ride through your hood
In a blue impala
Like we crips
Roll down the tints, G-Unit
Im a head busta, lil scrappy
When the lead touch ya
And they aint no comming back when you dead f**ker
Sleep in your earn
And get eaten by worms

Trying to fight a fire with
Bottled water heat and get burned
They tampered my phones
Like D-R-E and the firm
'cause im buzzing like WuTang
And it aint even my turn
So who it may concern
Youll get your whole mouth wide
F**kin with them gang bangers
In the SOUTHSIDE
(Chorus)
(Outro - Lil Scrappy (Game))
Hey hold the muthaf**ker up mi nigga
(hold up)
This your boy little scrappy shorty
(BME) A-town (A-town)
Mi nigga game (Comptown)
You know, its westside (G-G-G-G) in this bitch
They want (G-G-G-G-G-G Unit) to get that ass hit
They wanna get that ass hit
Ayy, ayy, ayy, (G-G-G-G)
Who you lookin at?
Nah not me nigga
Who you lookin at?

(Chorus)
SOUTHSIDE (X2)
