

Lil Tay, SUCKER 4 GREEN

I walked in the party
No friends on my arm
You got my attention like a fire alarm
I don't wanna lose ya
I don't wanna lose ya
I'm just looking through ya, you see my Medusa

Money, money, money
Money, money, money

I just can't look away from it
I want it, want it, want it

When you try to leave
I got you paralyzed
Fall for it every time

You got me screaming
At the top of my lungs
I must be dreaming
I can't get enough

You got me dripping off that look in your eyes
What you do to me
I'm a sucker for green

Some calling it a sick obsession
Nothing wrong with being rich and blessed and
I just want a few yachts and mansions, right now (Right now, brrr!)

Birkin bags and big diamonds
Dropping racks on my island
Got a touch like I'm Midas (Touch it, touch it, love it, love it)

Oooh, it's the way you keep looking at me-e-e (Ahhh)
I can stand the heat of a million degrees
Fuego! (Oh)

Money, money, money
(I just want your)
Money, money, money
I just can't look away from it
I want it, want it, want it!

You got me screaming
At the top of my lungs
I must be dreaming
I can't get enough

You got me dripping off that look in your eyes
What you do to me
I'm a sucker for green

Forgot to mention
You stay in my head
You're my obsession
Can't get out of bed

You got me dripping off that look in your eyes
What you do to me
I'm a sucker for green

What would I do without ya (money!)

We got a lil thang (Illuminati!)

And i'm just lovin' that (cash! cash!)

It's comin' and it's goin so (fast! fast!)

What would I do without ya (money!)

We got a lil thang (Illuminati!)

Cause all I want is your dollar signs
got me spending it all the time

Oooh, it's the way you keep looking at me-e-e (Ahhh)
I can stand the heat of a million degrees
Fuego! (Oh)

Money, money, money
Money, money, money
I just can't look away from it
I want it, want it, want it!

You got me screaming
At the top of my lungs
I must be dreaming (I must be dreaming)
I can't get enough
You got me dripping off that look in your eyes
What you do to me (Whatya do to me)
I'm a sucker for green
