

Lil Wayne, Shut Up Bitch Swallow

Start with straight shots
And then pop bottles, pour it on the models
Shut up bitch swallow

[Chorus: x4]

Shut up bitch swallow
Sh-shut up bitch swallow
If you can't swallow
Shut up bitch gargle

[Verse:]

Yeah, look
I got one in the back
I got one in the front
I make them do what I say
And tell me say what I want
I tell her, get your money girl
And just stop breathing cause
If it ain't about that dough,
It ain't about me neither
See a gangster like myself
I get that paper and women
Man your woman probably out there
With some paper to give me
Listen you're looking at a real pimp
Ask my old women and they'll tell you
No remote I control women
I'm a whole load, put me in the game woman
If he ain't paying then he shouldn't be playing
I'm saying, broke dudes only make jokes funny
I make more than I could fit in this coat honey

[incoherent words]

Fly you down here and lay you up in my beach house
And if you smile at my girl,
I'll make her smile back
And if you smile at my girl,
I'll make her smile back

[Chorus x6]
