Lil Wayne, Tha Blues

(Lil Wayne)
Come on, come on
Come on, come on, come on
Ain't nothin' nice or sweet (Huh?)
They don't even much understand this (Uh-uh)
Look-

Now when I crawl up out the Rove' I got quarters and O's Forty-fours under my clothes I'm drunk and blow And I done told them boys if they play I dump their mothers Now they findin' niggas everyday slumped in gutters I come through on the block strapped, bumpin' Bubba for the summer in a bright orange pumpkin Hummer Stumblin' from the Courvoisier, and lots of hay And make me run in your place and take your pops away See, they got niggas in my hood who can't cop the yay So I can get it understood and have you chopped today And not to say I could even hit your block and spray And try to knock all the bone structure out your face Stick a potato on the head of my nine it's deadly quiet Leave a nigga redder than swine, you damn pig The plan is to take everything and kill 'em all Young or old, nigga, big or small Ain't nothin' nice

(Hook (Lil Wayne))

Ain't nothin' nice around here, stupid
Keep playin', you won't see next year, stupid
And in the van there's a box in the back full of plenty of tools
And when you see me on the block, I come to give 'em the blues

(Lil Wayne)

Look-

Now we all do dumb things

Playin' with Wayne doesn't have to be one of 'em

I'll murder his father right in front of him

None of 'em are ready for the trouble I'm 'bout

Pull up in a bubble, hop out, then let a couple pop out

I got two double Desert Eagles, bustin' at your peoples Cussin' at polices, and roughin' up your nieces

(????) off the meters

Don't leave without the heaters

Believe this, my nina's got more shelves than Adidas

You see the slick jackin', believe it's glocks and millimeters

Run up on your family and pop your senioritas

A lot of Hennessy just twist that lil' baby

Damn, them hollow tips just missed that lil' baby

This is definitely, step to me, get a hysterectomy

Technically I'll murder anyone who disrespectin' me

Seventeen Carollton mess with me, I bury one

Three-eighty I carry one

Come to kill up everyone

What!

(Hook (Lil Wayne))

(Lil Wayne)

Everybody freeze and drop when Lil Wheezy cock And niggas be like Q-Tip 'cause they breath and stop Believe or not, the ki's ten G's a wat Until I die apple and Eagle that be's the block And he's so hot that four hundred degrees the spot And weed and vodk' got me wanna beat a cop I grease the glock, the scope with the beam and dot And I'm hangin' out the Beamer top releasin' shots Follow me everybody in the family die sourly
Niggas drop hourly ruinin' your economy
Liquor power me, now there's nothin' that can bother me
Creep up in your window while you're sleepin', take your child with me
I'm wild, and Wheezy more violent than Dennis Rodman
Slide up in a blue truck and shoot-up a whole lot of men
A lot of heat, a lot of fire, a blazer like Stoudamire
Ride around your neighborhood and you wake up with bodies by your house

(Hook (Lil Wayne))
