

LIL YACHTY, paint THE sky

So surreal
The vibes I feel
It must go on, oh, oh, oh
All for you

Feenin, fallin, crawlin, Im stallin for your love
You got me drinkin, smokin, I might overdose on your love
Feenin, fallin, crawlin, Im stallin for your love

You got me drinkin, smokin, I might overdose on your love
I need to chill
Emotionally scarred, I cannot feel

Am I not the one?
Am I not the one, not the one, the one for you?
You can keep it real
You get me high
You get me high, high
High enough to paint the sky for you

Every time
Its you and I
I feel revived
I would die for you

Feenin, fallin, crawlin, Im stallin for your love
You got me drinkin, smokin, I might overdose on your love

Feenin, fallin, crawlin, Im stallin for your love
You got me drinkin, smokin, I might overdose on your love
Overdose on your love
