

LIL YACHTY, running out of time

Watch it, girl
Don't ever tell me lies
I said watch it, baby
You and I been running out of time
What you may never know
Is more than you will see
And I can part the ocean
Come and sit by me

If I told you all of my secrets, baby girl
Baby girl, would you look in my eyes and feel deceived?
Well, I can't let you leave, I told you far too much
Now you gotta stuck with me (Here with me)

Run out
Running out of time
Run out
Running out of time with me

Stay up with me
Stay up and watch the sun, baby, lay up with me
Stay up with me
You been on my mind
And lately it feels like it ain't much time left
Run your lips into mine
Stronger when we unite!
Woo

Run out
Running out of time
Run out
Running out of time with me

Stay up with me
Stay up and watch the sun, baby, lay up with me
Stay up with me
You been on my mind
And lately it feels like it ain't much time left
Run your lips into mine
Stronger when we unite!
Woo

Run out
Running out of time
Run out
Running out of time with me

Run out
Running out of time
Run out
Running out of time with me
