

# Lili Haydn, Anything

I'm in too deep to turn around  
All I want is your sweet loving  
But when you move away from me  
I feel just like I am drowning  
And I know the sweetness is right before our eyes

I would do anything to be with you  
Make it through to understanding  
Anywhere you want me to  
Take to me, I know we'll make it through

I'm trying not to be so scared  
Sometimes I don't know if you want me  
When all I need is tenderness  
Show me how to love somebody  
And I know the sweetness is right before our eyes

repeat Chorus

And who knows what forever brings, but  
I am ready for real love...
