

Lili Haydn, Anything

I'm in too deep to turn around
All I want is your sweet loving
But when you move away from me
I feel just like I am drowning
And I know the sweetness is right before our eyes

I would do anything to be with you
Make it through to understanding
Anywhere you want me to
Talk to me, I know we'll make it through

I'm trying not to be so scared
Sometimes I don't know if you want me
When all I need is tenderness
Show me how to love somebody
And I know the sweetness is right before our eyes

repeat Chorus

And who knows what forever brings, but
I am ready for real love...
