

Lillix, Loser

They hate me
And love me
At the very same time
Can't have me
They want to
Destroy or take what's mine

But I see through you
I know what you really are inside
And what you're trying to hide
I'll forget it
And you will regret
That you ever lied
All in good time

And I will say it again
You're not my friend
You're playing pretend
And I will hold my ground
While you push me down
And I won't give it up
So shut it up
Go live it up
I know I won't fall through the shadows

Get over
Take over
And tell me what to do
I'm nothing...right
You got it so break me take me down

But I see through you
I know what you really are inside
And what you're trying to hide
I'll forget it
And you will regret
That you ever lied
All in good time

And I will say it again
You're not my friend
You're playing pretend
And I will hold my ground
While you push me down
And I won't give it up
So shut it up
Go live it up
I know I won't fall through the shadows

Hello accuser, fuckin' loser
Don't even try
I can read through your lines
Hello accuser, fuckin' loser
Don't even try
I can read through your lies

And I will say it again
You're not my friend
You're playing pretend
And I will hold my ground
While you push me down
And I won't give it up
So shut it up
Go live it up

I know I won't fall through the shadows

And I will say it again
You're not my friend
You're playing pretend
And I will hold my ground
While you push me down
And I won't give it up
So shut it up
Go live it up
I know I won't fall through the shadows

Those shadows
Those shadows
Those shadows
Those shadows
