

Lily Frost, Love Is Life

Can't you see?
You're the only one that matters to me,
you make my world turn around,
(around and around again)

When I'm feeling down,
you know how to make me smile again.
You can tell when I'm losing hope,
in life.

(Chorus)
you are my life,
you are my love,
life is my love.
love is my life...

life is lovve
(life is loving...)

(Chorus)

When I call your name,
you feel me calling,
for youuu...(repeat chorus to end)
