

# Limp Bizkit, Blood in my eyes (feat. Godsmack, D

Ooo Whatcha gonna do now  
Whatcha gonna do when they rhythm comes kicken you  
Tryin to make me bleed in to  
My resent so definite evident  
Breath life a disease gonna get you  
Off of me  
Thoughts of you rotting me  
Animosity grows into me  
Boy you lost when you made me the enemy  
Blood in my eyes Blood in my eyes  
I don't like to think  
I don't like to think about you  
No  
Whatcha gonna do  
Who your gonna do it to  
Cause it's makin me feel  
Yeah it's makin me feel (my real)  
Somethin I killed off  
Given off enough a lick about you  
To another like me punk  
Gonna get yourself knocked down  
Blood in my eyes Blood in my eyes  
Nightmares running through my mind  
Walked the path it warped my brain  
Never left me quiet insane  
All the memories of my pain  
Looking down as I remain  
So Empty  
Inside Me  
So Empty  
Hey You  
Look into my face  
Can't you see my grip  
Yeah feelin just about to kick it  
My innocence feeding your arrogance  
I guess you gave no thoughts to your madness  
Who you trying to fool now  
Who you trying to get to limit the insanity anew now  
Animosity  
Grows into me  
Waiting for anything  
I'm making you the enemy  
Walked the path it warped my brain  
Never left me quiet insane  
All the memories of my pain  
Looking down as I remain  
So Empty  
Inside Me  
So Empty  
Rage in my veins  
I can not remain  
Thinkin how you let me down  
Oh end my pain  
I can not remain  
Why don't you just let me drown  
Ooo Whatcha gonna do now  
Whatcha gonna do when they rhythm comes kicken you  
Now your makin me bleed in to  
Nightmares runnin through my mind  
Breath like a disease gonna get you off of me  
Thoughts of you rotting me  
Boy you lost when you made me the enemy  
Ooo like I never knew  
Just trusted you

Every single time I think of you  
Rape my mind to make me blind  
Thought that I'd forget it boy  
I'll hit you with the blind side  
No stoppin' it  
Watch me droppin' it  
Off of me  
Another nightmare rocking it  
Animosity grows into me  
Boy you lost now I made you the enemy  
Walked the path it warped my brain  
Never left me quite insane  
All the memories of my pain  
looking down as I remain  
So Empty  
Inside Me  
So Empty
