

Linda Davis, In A Different Light

We talk as neighbors by the fence
The seasons come and go
We've grown a little closer
Now that we both live alone
But we only find the time to chat
In the middle of our chores
Oh I can't help but wonder
If we could find something more
In a different light
If you could see me
In a different light
As if we held each other
Only just last night
Could we find ourselves as lovers
In a different light
This morning when I stepped out
For the paper and the mail
You waved from your front yard
Bad timing never fails
In slippers and a bathrobe
Oh how could you be impressed
But just give me an hour
And I could look my best
In a different light
If you could see me
In a different light
As if we held each other
Only just last night
Could we find ourselves as lovers
In a different light
In my mind I see us
In a candle lit cafe
Sharing tender moments
That take my breath away oh
In a different light
If you could see me
In a different light
As if we held each other
Only just last night
Could we find ourselves as lovers
In a different light
