

# Linda Davis, Some Kinda Woman

Well I guess your showing me a thing or two  
Loving with a vengeance  
Every night with someone new  
And I got this funny feeling  
It's for my benefit  
So I'm gonna take it  
As a kind of complement  
Oh I must be some kinda woman  
Look how many women you seem to need  
To take the place of one good one  
And give you what you have when you had me  
Oh I sure must be some kinda woman  
Since you need a different girl each night  
There must not be a one of them  
Knows now to do you right  
So add them little numbers  
Try and equal me  
Me I'm gonna take it  
As a form of flattery  
Oh I must be some kinda woman  
Look how many women you seem to need  
To take the place of one good one  
And give you what you have when you had me  
Oh I sure must be some kinda woman  
I've been looking for a chance we might  
Could get it back together  
Darlin' you've convinced me  
I could do a whole lot better  
Oh I must be some kinda woman  
Look how many women you seem to need  
To take the place of one good one  
And give you what you have when you had me  
Oh I sure must be some kinda woman  
Some kinda woman
