

Linda Perry, Let Me Ride

Thank you for your sweetness
A hundred miles of pure delight
When we get together baby
My temperature's a hundred and five
I want to be your lover
Wanna do you in the back of my car
Can't you see my body aches
Let me take it just a little too far
Why don't you
Come up to my room
Let me show you how to have a good time
I won't care if you rip out my hair
'Cause baby that means that I'm doing you right
Take me up to the sky
Let me feel your body tonight
I wanna lay in your bed
Let me ride
I'll fix you all up sugar
Shift your body into overdrive
I wanna coke you up my love
Lick your lips until we're both feelin' high
Let me be your pusher
Feel you up when your gettin' too dry
I wanna taste your sweet sweet love
So shut up and turn off the lights
Why don't you come up to my room
Let me show how to have a good time
I don't care if you rip out my hair
'Cause baby i know that means I'm doing you right
Take me up to the sky
Let me feel your body tonight
I wanna lay in your bed
So let me ride
Now that the party's over
I'm sure you had a really good time
I don't need your number baby
And I don't need you to bother to write
You and me are all that we'll be
Yes I'm better if we both say goodbye
I don't care if you rip out my hair
'Cause baby I know I was doing you right
