

# Lindi Ortega, Drift

Every time you drift from me  
You go further out to sea  
Every time you drift away from me

I don't see you anymore  
You've been taken by the storm  
The tide will never bring you back to me

But I'll try to save you  
Cause I cannot let you down  
And I'll try to save you  
Cause I will not watch you drown  
All alone

Though our love has lost it's sail  
I'm not gonna let this fail  
I will find you bring you back to me

And I'll try to save you  
Cause I cannot let you down  
And I'll try to save you  
Cause I will not watch you drown  
All alone

(bridge)

And I'll try to save you  
Cause I cannot let you down  
And I'll try to save you  
Cause I will not watch you drown  
All alone  
Said I will not watch you drown  
All alone
