

Lindsay Lohan, Very Last Moment In Time

Time stops for no one and moves on unaware
It's easy not to notice
It's easy not to care
Conversation circles
There's money changing hands
I've been standing in the middle
I've been caught up in the spin
But out of the confusion
The static and the noise you got my attention
And made me wanna live

[Chorus:]

Live like it's the last moon rising
Scream just like no one's there
Lose all of my defenses
Hold you touch you love, you like it's
A very last moment in time

It seems like I woke up beneath a different sky
And I'm drunk on what I'm seeing through these open eyes
All the little ways you move me
All the places you expose
The illusion I held on to
You've got me letting go

I just wanna stay here soaking up the rain
Falling all around me wash the world away

[Chorus]

Let me feel you next to me
Let me taste the breath you breathe
Open up the space between us

[Chorus]
