

Lindsay Pagano, Burnin' In Me

tired of walkin round
head down lost & found
victimized by a prize that ain't worth keepin
feelin all alone
address unknown
where do u go when the clouds start creepin

gotta turn on a dime now baby make it shine
like the gift was inteded to be
its a light that burns when u doubt
and u can't get it back when u can't even see

i believe i believe i believe
i believe its burning in me
i believe i believe i believe
we can make it we can make it
if we just reach up and take it

kick scratchin this childs gone wild
in the city its a pity when ur blind by greed
whatcha take is ur soul and the one thing u hold is the love u make and love is free

too ashamed to ask that the past be forgiven
didn't ur moma teach u how to say please
put ur mind in line for the goal
if u can't take control then get down on ur knees

i believe i believe i believe
i believe its burning in me
i believe i believe i believe
we can make make it
if we just reach up and take it

gotta turn on the dime now baby make it shine
like a gift was intended to be
its a light that burns out when u doubt and u can't get it back when u can't even see
i believe i believe i believe
i believe its burning in me
its burning in me

gotta turn on a dime now baby make it shine
like a gift was intended to be
put ur mind in line for the goal
if u can't take control then get down on ur knees

i believe i believe i believe
i believe its burning in me
i believe i believe i believe
we can make we can make it if we jsut...take it
