

Lindsey Buckingham, Down On Rodeo

After the music ended there was
nowhere to go but down
Faces of glass all hung in the past they
only come here to drown
They were long gone far gone nowhere
else to go
Long gone far gone down on Rodeo

We never took quite enough chances we
never had quite enough time
I did about a thousand dances but
nothing would change your mind
You were long gone far gone putting on
your show
Long gone far gone down Rodeo

I'm going where nobody's gone before
ain't never coming back
Going where nobody's gone before ain't
never coming back

That's just the way it goes sometimes
the price is a little too much
Two little children on reveille hill we
looked but we couldn't touch
We were long gone far gone looking in
the window
Long gone far gone down on Rodeo
