

# Line Life, Song

1: When I sit and I think of you,  
maybe you are for I my heart not stop thinking that ,  
but I am for you that . I must listen to you,  
and I make it want that , because I love you .  
Probably, never I would break with you.  
Impression beguile that I take care of this relationship only because.  
You do not concern you !  
Not! Now I will say something it!  
R: Everything it that say think!  
I know, that I can depress ,  
but it remember that I have dreams already,  
talent beguile from god,  
I must develop which!  
2: Now you must not apprehend,  
because I has been changed how only!  
Now you will be felt as I it at once!  
\* I say already NOT! I say already NOT, NOT!  
Your world is foreign completely me,  
I do not learn I already you and now I will say,  
that already enough, dreams are important too.  
And it remember about it, that...  
R: Everything it that say think!  
I know, that I can depress ,  
but it remember that I have dreams already,  
talent beguile from god,  
I must develop which!
