When I look into your eyes there's nothing there to see Nothing but my own mistakes staring back at me

Everything has to end You'll soon find that we're out of time left to watch it all unwind Everything falls apart Even the people who never frown eventually break down Everything has to end You'll soon find that we're out of time left to watch in all unwind Everything falls apart Even the people who never frown eventually break down

I've lied to you This is the last smile that I'll fake for the sake of being with you Everything falls apart even Even the people who never frown eventually break down Everything has to end You'll soon find we're out of time left to watch it all unwind The sake of being with you Everything falls apart Even the people who never frown eventually break down The sacrifice is never knowing

Why I stay When you just push away No matter what you see You're still so blind to me

Even the people who never frown eventually break down

I've tried, like you, to do everything you wanted to This is the last time That I'll take the blame for the sake of being with you Everything falls apart Even the people who never frown eventually break down The sacrifice of hiding in a lie Everything has to end You'll soon find we're out of time left to watch it all unwind The sacrifice is never knowing

Why I stay When you just push away No matter what you see You're still so blind to me

Reverse psychology is failing miserably It's so hard to be left all alone Telling you is the only chance for me There is nothing left but to turn and face you When I look into your eyes there nothing there to see Nothing but my own mistakes staring back at me Asking why The sacrifice of hiding in a lie The sacrifice is never knowing

Why I stay When you just push away No matter what you see You're still so blind to me

Why I stay When you just push away No matter what you see You're still so blind to me
