

LION BABE, Don't Break My Heart

Baby, baby
A baby, don't break my heart!
/2x

Will you come and save me?
Wanna be your lady
Give me love, amaze me
Baby, I feel
Kiss you in the evening
Hug you in the morning
Have you thinking god damn
We're out of control

Baby, baby
A baby, don't break my heart!
/2x

You know I've been feeling
Like this is the beginning
Wanna know you love me
Like you say you do
Risking you say no
There is a no you never know
What broke me once before
(I can't go for less)

What I feel won't go away
So you better be here to stay
I want to fall this heart as bricks
So don't pull tricks on me
When I get down
You breaks me inside
Be mine..

Baby, baby
A baby, don't break my heart!
/2x

Let me love you
Like I want to
Let me love you
Like I want to
Like I want to
Cause I need you

Baby, baby
A baby, don't break my heart!
/2x

A baby
A baby, baby
Eyy, baby boy
You drive me crazy out of my head
I can't just be your friend
So I have to make you understand
What I want from you
What I need from you
What is gonna be
What you want from me
Ok?
