## Lionel Richie, Don't You Ever Go Away

Hey, can you tell my heart is aching You, It's only you that's on my mind I, I can not fight this feeling Now, now I know why love is blind

From the top of my world to the bottom of my heart Just the way that you are, you're the one my shining star Everything that you do, everything that you might say You're the love of my life, don't you ever go away

Love, I feel my heart could beat forever Kiss, when it's slow with tenderness Touch, when we're making love it's heaven Time, girl with you, there's only bliss

From the top of my world to the bottom of my heart Just the way that you are, you're the one my shining star Everything that you do, everything that you might say You're the love of my life, don't you ever go away Don't you ever go away

You are everything I wanted And I would love to love you girl To the end of time

From the top of my world to the bottom of my heart Just the way that you are, you're the one my shining star Everything that you do, everything that you might say You're the love of my life, don't you ever go away

[Repeat]
