

# Lionel Richie, Here Is My Heart

Here is my heart you can take it

There's a time in your life for believing  
That impossible dream in your heart  
When you find in one magical moment  
The one you search for from the start  
On a night like tonight when you're holding me  
I can see in your eyes it's you I've dreamed of

Here is my heart you can take it  
Love so strong, can't be wrong  
Here is my heart please don't break it  
Come what may, here I'll stay  
Here is my heart, only for you

If I gave you the keys of a kingdom  
If I dressed you in diamonds and pearls  
It could never compare to the feeling  
We have together, right now  
On a night like tonight, you're everything  
For once in my life it feels like heaven

Here is my heart you can take it  
Love so strong, can't be wrong  
Here is my heart please don't break it  
Come what may, here I'll stay  
Here is my heart, only for you  
Here is my heart, now and forever yours

Making love under the stars  
Paradise is where we are  
Living it up will never stop  
Dancing together  
Round and round and round we go  
Feel the rhythm in your soul  
Nothing is going to stop us  
When we're dancing together  
All night long, forever

Here is my heart you can take it  
Here is my heart please don't break it  
Here is my heart you can take it  
Love so strong, can't be wrong  
Here is my heart please don't break it  
Come what may, here I'll stay  
Here is my heart  
Here is my heart come on and take it  
Come on and take it  
Please don't break it, don't break it girl  
Here is my heart
