

Lisa Brokop, Not Here In My Arms

She left you alone then i came along
you said you were over her for good
looks like you were wrong
"cause you still call her name
Sometimes in the night
you may have a broken heart
But you don't have that right

chorus:

Not here in my arms
Not while you're here with me
If my love can't erase another time and place
Then I'm not what you need
I can hold you close
But i can only go so far
I know she said goodbye
And you need somewhere to cry
But not here in my arms

I can give you love I can give you time
But i can't give you all that's in my heart
While she's still on your mind
So maybe I should go
And leave you alone
If you need to get over her
Then do it on your own time

repeat chorus:
