

Lisa Chappell, Love's Around the Corner

When you feel hope is gone
and everything's wrong
everything you do creates a storm
hold on, hold on

When the worlds gone mad
you're living in a frown
everything you do is taking you down
hold on, hold on.

Cause love's just around the corner
living a heart-beat away
love's just around the corner
and when it comes, when it comes
it's going to stay

When your love's gone astray
you're fighting every day
you wake up in the morning
you don't know if you'll stay
hold on

When you feel so alone
you can't believe he's gone
your friends try and tell you it's time to move on
hold on, hold on

'Cause love's just around the corner
living a heart-beat away
love's just around the corner
and when it comes, when it comes
it's going to stay

Not go away
not go away
love's just round the corner
just a heart-beat away
