## Lisa Chappell, Love's Around the Corner

When you feel hope is gone and everything's wrong everything you do creates a storm hold on, hold on When the worlds gone mad you're living in a frown everything you do is taking you down hold on, hold on. Cause love's just around the corner living a heart-beat away love's just around the corner and when it comes, when it comes it's going to stay When your love's gone astray you're fighting every day you wake up in the morning you don't know if you'll stay hold on When you feel so alone you can't believe he's gone your friends try and tell you it's time to move on hold on, hold on 'Cause love's just around the corner living a heart-beat away love's just around the corner and when it comes, when it comes it's going to stay Not go away not go away love's just round the corner just a heart-beat away
