

# Lisa Lopes feat. 2pac, Legendary

[Verse 1]

Untouchable

look at how you found me

I'm lookin' around sayin' these are my friends

It's a strange world my enemies are my friends

I'm on the same street, same world, same problems

Is it different?

Same drama, same karma, same mama

Is it different?

The only difference is me

I see inside the truth

Feel bad you don't know the day gon' come

When God has taken you

I see the invisible spirits, walkin' along the physical mind

Of a crazy individual

Where demons still find it livable

I need a hug to hold my soul inside my body

I got the secret here

Yeah, I should have told somebody

'Cause ever since I've been sayin' things I never meant

It's like I was speakin' in tongues, the black breath in my lungs

I won't allow it

Where the cowards live under the dirt and the flowers

Ready to come up in the darkest hour

It ain't the courage of my persona

You wanna admire it's the faith

'Cause with the faith I can walk through the fire

(Now feel me)

[Chorus]

I know you feel me it's the untouchable

Untouchable

Make yourself presentable

I'm listening to mysteries of the untold

Echoing inside my soul

I know you feel me it's the untouchable

Untouchable

Make yourself presentable

I'm listening to mysteries of the untold

Using the light from my wings that make us fly together

[Verse 2]

Sometimes I'm feelin' like I'm sinkin'

Thinkin' what it's like from on the other side

When I look at myself it's like my love had died

People thinkin' of gettin' richer

I'm usin' the blood of the loves that I lost recently

To paint a perfect picture

Can you see the future, future endeavors

That'll make us better

Usin' the light from my wings to make us fly together

Guide my people to a place like what we imagined

My duty now is to God

There's no more beauty pageants

With the creator, we getting the chance to thank 'em

Me and you finally for what they made us

Is it a game that we still playin'

Look at us now we're rid of grief

Payin' society's debt but life we still obeyin'

Until then I'll follow the path

Where will it lead?

Much in between ashes and dust

We must believe

Trickery ain't trickin' me

I got tricks up my sleeve

They tryin' to market I'm tryin' to make my mark before I leave

[Chorus]  
I know you feel me it's the untouchable  
Untouchable  
Make yourself presentable  
I'm listening to mysteries of the untold  
Echoing inside my soul  
I know you feel me it's the untouchable  
Untouchable  
Make yourself presentable  
I'm listening to mysteries of the untold  
Using the light from my wings that make us fly together  
Untouchable  
Echoing inside my soul  
Echoing inside my soul  
[Chorus]  
I know you feel me it's the untouchable  
Untouchable  
Make yourself presentable  
I'm listening to mysteries of the untold  
Echoing inside my soul  
I know you feel me it's the untouchable  
Untouchable  
Make yourself presentable  
I'm listening to mysteries of the untold  
Using the light from my wings that make us fly together  
Echoing inside my soul  
Echoing inside my soul
