

Lisa Marie Presley, Shine

Unidentified flying object in space
If I were identified you couldnt make me erase
You never understood me and Id have to applaud
Its lonely out here alone but I cant be what Im not
You can be all the writing on the wall
That you want
Ill be the line across it
Ill blow your mind
Ill blow your mind
And all the others can shine
But not like I can shine
You could have set me free
If youd eased up on the line
Its supposed to be quiet
But its loud in this sky
Ill take care of the vultures with a glass of wine
You can be all the writing on the wall
That you want
Ill be the line across it
Ill blow your mind
Ill blow your mind
You can be all the writing on the wall
That you want
Ill be the line across it
Ill blow your mind
Ill blow your mind
