

# LISA MAY, Young Love

Ey, Young Love  
We can get to the sun  
You know  
Don't you know, right?  
When the galaxies collide  
The run this ..  
Like the skies  
Like the skies

Crushing, when all world goes down  
I give you my own  
I be around  
To my

See through my soul  
And I can hold

...  
Everything feel wrong  
And I can escape from you  
No, I can escape from you  
See, it's breaking thought my bones  
And my heart flows  
Leave..  
Is out of control  
And I can escape from you  
No, I can escape from you
