

Lisa Stansfield, Be Mine

(L. Stansfield/I. Devaney)

My sweet joy.

It's the little things you do that make me love you,

The way you touch my hair,

The way you care,

And when night-time comes around,

I fall asleep with you,

So I can dream the day all over again.

With sweet sweet love runnin' through me,

I give you everything I have and everything I can be,

I can't stand the thought of ever losing you,

So baby stay with me.

Chorus:

May you always be mine,

Babe I want you for all time,

May you always be mine

From the moment you take hold of me,

I wake up,

You wake up my very soul,

Time just flies away the more you kiss me,

May we forever share this love affair.

Chorus

Babe I can't explain that it's like walking in the rain,

And I thank God for the day I found you,

We've got the lot with the love we've got,

So let it stay...

Chorus
