

Lisa Stansfield, Feel It From Inside

Feel it from inside, this mellow feeling
There's no need to hide, this mellow feeling

Walk don't run, take your chance now it has come
Take it slow, old on tight, don't let it go
Have you thought
This is love
If it is
You should

Feel it from inside, this mellow feeling
There's no need to hide, this mellow feeling

This is true, now you step into the new
Play for time to come, if there's that special reason
Do you love
From within
If you do
You will

Feel it from inside, this mellow feeling
There's no need to hide, this mellow feeling

Needing the touch of another hand
Knowing that something is missing
Needing to share it with somebody else
Then only then will you find the warmth of love
