

# Lisa Stansfield, Feel It From Inside

Feel it from inside, this mellow feeling  
There's no need to hide, this mellow feeling

Walk don't run, take your chance now it has come  
Take it slow, old on tight, don't let it go  
Have you thought  
This is love  
If it is  
You should

Feel it from inside, this mellow feeling  
There's no need to hide, this mellow feeling

This is true, now you step into the new  
Play for time to come, if there's that special reason  
Do you love  
From within  
If you do  
You will

Feel it from inside, this mellow feeling  
There's no need to hide, this mellow feeling

Needing the touch of another hand  
Knowing that something is missing  
Needing to share it with somebody else  
Then only then will you find the warmth of love
