

# Lisa Stansfield, I Give You Everything

(L. Stansfield/I. Devaney)

Chorus:

With my heart I give you everything

Everything you ever need

Everything you need to be strong

In my mind I can justify

Why I never tell a lie

'Cos you're the only one that I want

That I want

Oh my darling what we have is

Something good and something true

There's no other in my life

Could ever take the place of you

I do my best to make you happy

With everything I say and do

And you know I want you with me

Every minute every second too

With every passing day I'll tell you

and with every passing moment I will say

Chorus

Tell me baby can I love you

'till the life runs out of me

I don't want nobody else

'Cos you're the only thing I see

Take my mind take my body

And don't you ever ever stop

'Cos there's no love we can discover

that is bigger than the one we've got

With every passing day I'll tell you

Find with every passing moment I will say

Chorus
