

# Lisa Stansfield, Let's Just Call It Love

Let's just do it...

Let's Just Call It Love

Is it any wonder I feel beautiful tonight

'Cause the spell I'm under makes the stars shine oh so bright

Is it affection 'cause I think I like it

Whatever you're doing to me there's no way to describe it

So

Chorus:

Let's just call it love

You call it what you want call it emotion

Let's just call it love

You can call it a feeling call it a notion

Let's just call it love

You can say that it's right you can say that it's wrong

But baby it's just too damn good

Let's just call it love

Let's just call it love

I'm caught up in the moment I could be anywhere at all

Ain't nothin' that can bring me down no 'cause baby I feel ten feet tall

Is it obsession 'cause though I like it

It's really taken a hold of me now and I don't want to fight it

No no so

(Chorus)

You can call it anything anything at all

We can take it anywhere anywhere we want to

'Cause you and me baby it's what we need

So let's see that sun we've got all night long

Let's go on and on (x 4)

(Chorus x 2 and Fade)
