

# Lisa Stansfield, Only Love

(d. pickerill/p. o'donoughue)

A lonely day can make you cry  
The phone won't ring, you wonder why  
The mail is late, and you can't wait  
And then you know, and then you know

Chorus:

Only love can break your heart  
Pull you down, tear you apart  
Only love can make you blue  
That is all love can do

You walk alone with an aching heart  
Wonder how you'll make a start  
A brand new day while he's away

And then you know, and then you know

Don't be a fool, life's not that bad  
Remember good times you once had  
Another day (from an attractive play? )  
And then you know, and then you know

Chorus

You took a chance and it didn't last  
No point in living in the past  
So make the break, enjoy your mistakes  
And then you know, and then you know

Chorus (x3)
