

Lisa Stansfield, Someday (I'm Coming Back)

Chorus:

Someday I'm coming back, and it won't be long

Before you call me and tell me to come home

Someday I'm coming back, and it won't be long

Before I'm home, home and in your arms

What did I do my darling ? That made you send me running

Told you to cast me down and throw me out

What can I tell you honey, If I don't know what I've done

All I can hope is that you ask me to come back home

(Chorus)

Even in stormy weather, we always stick together

You always kept me near, we're so sincere

So why so sudden the change of heart

Why do I feel like I've done wrong ?

When all that I want is that you ask me to come back home

(Chorus)

Someday, someday (I never wanted anyone so much)

Someday, someday

What did I do my darling ? That made you send me running

Told you to cast me down and throw me out

What can I tell you honey, If I don't know what I've done

All I can hope is that you ask me to come back home

So why so sudden the change of heart

Why do I feel like I've done wrong ?

When all that I want is that you ask me to come back home

(Chorus to Fade)
