

# LITTLE BIG, Public Enemy

Nobody can change it  
Nobody can change it  
Nobody can  
Nobody can  
Nobody can change it

Of your fucked up style  
I got weak and tired  
I will blow your mind  
I'm the new cancer

You still swallow lies  
Loading fridge so tight  
Acting jerk ass part  
I'll give the answer

They wanna fuck you for free and explode ya  
I'm gonna wasting no time let me show ya  
You gotta be kidding  
Cause nothing is happening  
You wanna be happy  
So follow me

And now I'm running out through the fire  
No scared of jail police cars fucking lawyers  
Gloom (you are in a trouble)  
Boom (I'm in the headlines)  
Gloom (you are in a trouble)  
Boom (I'm in the headlines)

I'm, I'm, I'm enemy I'm, I'm public enemy  
I'm, I'm, I'm enemy I'm, I'm public enemy  
I'm, I'm, I'm enemy I'm, I'm public enemy  
Public enemy. (x4)
