

# Little Big Town, Bring It On Home

You got someone here wants to make alright  
Someone who loves you more than life right here  
You got willing arms that'll hold you tight  
A hand to lead you on through the night right here  
I know your heart can get all tangled up inside  
But don't you keep it to yourself

(Chorus:)

When your long day is over  
And you can barely drag your feet  
The weight of the world is on your shoulders  
I know what you need  
Bring it on home to me

You know i know you like the back of my hand  
But did you know I'm gonna do all that I can right here  
I'm gonna lie with you till you fall asleep  
When the morning comes I'm still gonna be right here (yes I am)  
So take your worries and just drop them at the door  
Baby leave it all behind

(Chorus)

Baby let me be you safe harbor  
Don't let the water come and carry you away

(Chorus)

You got someone here wants to make it alright  
Someone who loves you more than life right here
