

Little Big Town, Never Felt Love

I've seen it come and I've watched it go
The ins and outs and the highs and lows
Well, I gave my heart and I paid the cost
For the loves I made, there were friends I lost
At the point I'd almost had enough
Like the morning sun, you woke me up
You held me close and you helped me see
Oh, you made a believer out of me

Now I'm alright
I've got you in my life
And I've never felt love ever feel so right

It's a miracle and a mystery
How the hands of fate brought you to me
I had lost all hope, I had lost all faith
With each kiss, you loved my fear away

Now I'm alright
I've got you in my life
And I've never felt love ever feel so right

Well it's good to feel and for once I know
That I'll never have to worry about you letting go
No matter where the road may lead
As long as I've got you with me

I'll be alright
I've got you in my life
Now I'm alright
And I've never felt love ever feel so right
Never felt love ever feel so right
