

Little River Band, Lead Me To Water

Feeling like winter
Is this the way it's meant to be
Stare out my window
I see nothing but the trees

I don't like this feeling
Just me on the border
I just want to feel like home

Lead me to water, show me life
Reach for that something that I can't find
Take hold of my hand, bring me home tonight
Lead me to water
Walk to the daylight
I see the end so far away
Break through tomorrow
It's just a game we all must play

She is so many memories
She was all I ever knew
I just wanna feel like home

Lead me to water, show me life
Reach for that something that I can't find
Take hold of my hand, bring me home tonight
Lead me to water
Better lead me to water

Lead me to water, show me life
Reach for that something that I can't find
Take hold of my hand, bring me home tonight

Lead me to water, show me life
Reach for that something that I can't find
Take hold of my hand, bring me home tonight
Lead me to water
