Little River Band, Lead Me To Water

Feeling like winter Is this the way it's meant to be Stare out my window I see nothing but the trees

I don't like this feeling Just me on the border I just want to feel like home

Lead me to water, show me life Reach for that something that I can't find Take hold of my hand, bring me home tonight Lead me to water Walk to the daylight I see the end so far away Break through tomorrow It's just a game we all must play

She is so many memories She was all I ever knew I just wanna feel like home

Lead me to water, show me life Reach for that something that I can't find Take hold of my hand, bring me home tonight Lead me to water Better lead me to water

Lead me to water, show me life Reach for that something that I can't find Take hold of my hand, bring me home tonight

Lead me to water, show me life Reach for that something that I can't find Take hold of my hand, bring me home tonight Lead me to water
