

# Little River Band, Where We Started From

When you call my name from wherever you are  
I will find my way back to your home town  
I will send a prayer to wherever you've gone  
Take us all the way to where we started from  
I hope it's alright with you  
But you've been on my mind tonight  
Well I was lookin' over water  
And I was sure I saw you in the light  
Like a half-forgotten memory  
Of a song that won't quite come back to me  
You were dancin' on the waves  
Laughin' like a little child  
As the river passed you by  
When you call my name from wherever you are  
I will find my way back to your home town  
I will send a prayer to wherever you've gone  
Take us all the way to where we started from  
I thought I heard you cryin'  
But you said it was nothin' to worry me  
Told me you'll be waitin'  
While I go complicatin' our destiny  
You got a talent for makin' the days drag by  
While I wait to see you one more time  
We'll be dancin' on the waves  
Laughin' like little children  
As the river passes by  
When you call my name from wherever you are  
I will find my way back to your home town  
I will send a prayer to wherever you've gone  
Take us all the way to where we started from  
When you call my name from wherever you are  
I will find my way back to your home town  
I will send a prayer to wherever you've gone  
Take us all the way to where we started from  
All the way back all the way
