

# Little Texas, The Call

(Tim Rushlow/Walt Aldridge)  
(Track 8 - Time 4:23)

I know you're hurtin'  
Feelin' uncertain  
'Cause love's never happened  
Like you hoped it would

So scared of trying  
It's just the fear of flyin'  
You say you're through with takin' chances  
For good

You can run but you can't hide  
You can keep it all inside  
Take it from a fool who's tried it all  
Pay attention to a friend  
Who swore he'd never fall again  
You're gonna answer  
When you get the call

When love finds you  
Sneaks up behind you  
With eyes that see through  
All of your charades

You can't deny it  
So don't even try it  
Love's gonna change you  
No matter what you say

You can run but you can't hide  
You can keep it all inside  
Take it from a fool who's tried it all  
Pay attention to a friend  
Who swore he'd never fall again  
You're gonna answer  
When you get the call

You never know for sure  
Where that love might be  
Halfway around the world  
Or in the heart of a friend like me

You can run but you can't hide  
You can keep it all inside  
Take it from a fool who's tried it all  
Pay attention to a friend  
Who swore he'd never fall again  
You're gonna answer  
When you get the call

Oh you're gonna answer  
When you get the call

You're gonna answer  
When you get the call
