

Live, Bonus Track (Throwing Copper)

All the things that they make you say
And all the love that you hide away
I'll pick you up and it'll be all right
I'll pick you up and it'll be tonight
She rode a horse into my head
She rode a horse into my head
She won't discipline the children
And now they're running wild on the beach
And I don't care
It's the middle of the night and we're here
Playing dominoes and drinking beer
I try to think of something deep to say
But my well is dripping dry today
She rode a horse into my head
She rode a horse into my head
She won't discipline the children
And now they're running wild on the beach
And I don't care
