

# Live, Walk Into This Room

Don't let 'em get to your heart  
Don't lose your diamonds swimmin' in a lake when it's ( ? ? )  
The whole wide world feels like a shrine built to the worker bees  
Who stole it from God anyhow

Lay it down child  
Lay it down child  
And walk into this room

Don't let 'em get to your spark  
That little light in the back of everything that says this  
Isn't for madder love  
The whole wide world feels like a clan of mad scientists removing the juice  
So they can freeze-dry you and put you in a box

Lay it down child  
Lay it down child  
And walk into this room all made with love for you  
Lay it down child  
You can  
You can  
Lay it down child

And walk into this room

A hundred candles to make the walls come alive  
A little frank insence to sweeten the air just right  
Now take my hand

And open the door  
And open the door  
Yeah, oh...  
Yeah, oh...

Lay it down child  
You can  
You can  
Lay it down child  
And walk into this room  
Walk into this room  
Lay it down child  
Just lay it down, lay it down  
Lay it down  
Lay it down, lay it down  
Into this room
