

# LL Cool J, No Question

[Rap:]

Concentrate, listen to me,  
while you do me, Should I surrender when you persue me,  
You think a man don't have heart and soul,  
When a hand's that good, anybody will fold,  
It's like poetry in motion,  
But the heart regulates the devotion,  
Love is floatin' in a sky blue ocean,  
Think about it, Feel the motion, young queen, it reminds me of a smoothed  
out movie scene,  
Two bodies intertwined on the screen, Everybody make love in their dreams,  
But this is real, know what I mean?  
Passion is the way of the world, Electricity when boy meets girl,  
And making love is the key, A burning flame that will last eternally

[Verse 1:]

You should know that I'm here for you,  
As long as you see me through,  
I would give all I have just to be with you,  
Don't you see honey it could be me and you.

[Chorus]

I really look forward to being with you,  
When you're not around I don't know what to do,  
You give me a feeling that I can't control,  
You take my heart and soul  
Never Question what I do,  
Cause you need me baby and I need you,  
so there's no need for ya to have no fears,  
Without a doubt I will be here,

[Verse 2:]

Now I know what I want to do,  
Everything is all right as long as I'm with you,  
Oh don't you understand I don't want to be alone,  
Baby don't you know:

[Chorus:]

I really look forward to being with you,  
When you're not around I don't know what to do,  
You give me a feeling that I can't control,  
You take my heart and soul,  
Never question what I do,  
Cause you need me and I need you,  
So there's no need for ya to have no fears,  
Without doubt I will be here.
