I know the one nigga  
two nigga  
three niggaz think they can see me  
but i could name my compotion on my pink  
the rookie of the year so dont come at me  
you looking at the quickest way to fuck up your carrer, ya  
you only agravating my ear  
setting fuel to the fire  
scattered views of a lyer  
its not only the poeple its the egos I admire  
me and money go together like mosiqitos in a tire  
your waiting to the day to see refold and retire  
I wear my outfits once your reloading your dryer  
i got the, eye of a tiger, pactions of a sniper,  
heart of a gerrilla hustle harder for the thrill  
i know im a make it longer regardless cause im realer  
spent the early days of my childhood around a killa, What!
