

Lloyd Cole, Be There

sign your name without apology, sign on, sign on
keep your eye on the economy, sign on, shine on

and everybody knows that this is nowhere
everybody knows that this is nowhere, nowhere

but you`ve got to be here
yes you`ve got to be right there
yes you got to be there yeh
yes you got to be there
man you got to be right there
yes you got to be here yeh

bide your time milk and three sugars please, sign on, sign on
you need a line, you need some poetry, right on, right on

and everybody knows that this is nowhere
nobody knows that this is nowhere oh yeh

but you`ve got to be there
yes you`ve got to be right there
yes you got to be there yeh
